OBJECTIVE

Seeking a challenging web development role to stretch and apply skills in using JavaScript, React.js, Python, and Node.js in developing reactive and high-performance web applications. This skill set in frontend technologies in using HTML, CSS, Tailwind CSS, and Next.js will enhance user experience. Contributing towards innovative projects that leverage top-of-the-line frontend technology against robust backend systems using MongoDB, SQL, or PostgreSQL is of great interest. Committed to delivering scalable and efficient solutions with good-quality code, using Jest and unit testing to provide reliability and maintainability.

EXPERIENCE

- **KWIKKODER IT Solutions Private Limited [🌐]** *October 2023 - Present*
  Junior Software Developer Hyderabad, India
  - Contributed to the development of two custom web applications in the educational technology industry, whose client engagement increased by 30% after implementing customized modules and features.
  - Integrated and managed large databases using PostgreSQL and MongoDB, optimizing data processing and reducing system downtime by 15 %.
  - Built and maintained 15+ reusable React components, reducing development time by 30% and enhancing UI consistency.
  - Enhanced the performance of web applications by implementing responsive design best practices, reducing load times by 40 % and improving the overall user experience.
  - Transformed static web pages into responsive, dynamic interfaces and reduced device-specific bugs by 35%.
  - Implemented Webpack module bundler that can manage and optimize the various JavaScript files so productivity becomes 30% higher than before.
  - Utilized Agile methodologies to manage and deliver projects on time and within budget, contributing to a 95% client satisfaction rate and successful completion of complex projects.

EDUCATION

- **David Memorial Institute of Management** *June 2021 - October 2023*
  Master of Business Adminstration Hyderabad, India
  - GPA: 83%

- **Hindi Mahavidhyalaya degree College** *June 2017 - October 2020*
  Bachelor of Computer Science Hyderabad, India
  - GPA: 72%

- **Nalla MallaReddy Junior College** *June 2015 - march 2017*
  Board of Intermediate Hyderabad, India
  - GPA: 73%

SKILLS

- **Programming Languages:** JavaScript, React.JS, Node.JS, Express.JS , Python.
- **Web Technologies:** HTML5, CSS, Tailwind.CSS, React.JS, Redux Toolkit.
- **Database Systems:** MongoDB, SQL and PostgreSQL.
- **Version Control and Other Tools:** Git, GitHub, Webpack
- **Specialized Area:** Frontend Development, Backend Development.
- **Agile Methodologies in SDLC:** Experienced in Agile frameworks like Scrum for efficient software development lifecycle management.
- **Communication Skills:** Effective verbal and written communication.
- **Problem-Solving Skills:** Creative and analytical problem resolution.
- **Decision Making:** Informed and strategic decision-making.
- **Interpersonal Skills:** Strong collaboration and team-building abilities.

ADDITIONAL INFORMATION

Portfolio &Website: Developed a responsive, visually appealing personal portfolio website. it is done with React.js, HTML, CSS, and JavaScript. Web pages were developed using dynamic content and responsive design. Here, frontend support was taken from React.js, and Node.js and Express have been implemented for backend support to enable smooth data handling. Database management has been taken care of by SQL/PostgreSQL, which enhances user experience and overall performance.
